

Tyler Herron

Production Design/Creative

I am a creative story-teller at heart. Stories come in many different forms and can be told using many different mediums. I strive to be excellent in all mediums in order to tell the story that needs to be told in the way it deserves. Sometimes I do it by myself, but more often than not it is through collaboration with other artists. Art makes the world go round, but collaboration makes it spin faster so I try to spend as much time as possible doing that.

Employment
